

Commercial Carpet as of July 2013

Commercial carpet rates are some of the most competitively prices rates in this business. I am sure that another cleaning company can give you a lower price than we can. We are not a discount price based company. We are a quality based company. We have built our reputation on this standard and are committed to maintaining it. In many cases it is less expensive for you to pay our daily rate than it is for you to pay a price per SQ. FT(usually between \$0.30-0.35/FT). We can clean better and faster than 2 Steam cleaning trucks with four guys, with two of our guys and one of our trucks. Call for our current rates, and we can help you make a decision. Thanks.
