

## **RV & Park Model Pricing as of March 2016**

Most RV's really don't have a lot of square footage to clean, but they have nooks and crannies, tables, swinging recliners, and chairs to go around, and this takes extra time. Same thing with park models. Most calls for these types of RV's are from people that are from out of the area, and they are not here year round. I.e. I don't know you. Bottom line is this, if you want this service performed, we have a flat rate for motorhomes and trailers. The current price is \$196.00 for the carpet only. If you want furniture done, click our furniture pricing tab and get that price.

Park models have a little more square footage and the current rate for those is \$196.00 each. If this is too high for you, then call someone else. That is what we charge. I don't care what the guy from Utah charges when he is in town or what you pay in Phoenix while you are there. We charge what we feel is fair. All calls for ANY and ALL RV's and park models are to be pre-paid in cash BEFORE we will put you on the schedule. Unfortunately we have been burned by too many out-of- towners. If this seems unreasonable to you, please call someone else. Thanks
