

Carpet Restoration Pricing as of March 2016

Our 7-Step process is not offered anywhere in the world! This is quite a claim, but I challenge you to find another company that offers what we provide in terms of quality at a lower price! Our Introductory rate for our 7-Step Restoration process is currently priced at \$0.56/SQ. FT. If you have more square footage to clean, you save 5% for every pricing level that you qualify for, up to 25%!

Take a look at all of the additional services that we offer for residential clients:

- **Furniture moving.** Our technicians can move the furniture in your rooms to clean the carpets underneath that have been accumulating dust and other contaminants over the years. We move all REASONABLE items(items we do NOT move include: Entertainment centers, breakable artwork, beds that have center support, heavy items, antiques, electronics, etc).
- **Speed drying.** Our Very Low Moisture Carpet Restoration Process uses less than 10% of the water that other methods use. This enables us to 'speed-dry' your carpets rapidly once we have cleaned them. We can usually completely dry out residential carpets in less than ONE hour with our specialized air movers. Should you decide to let them dry on their own, depending on the ambient temperature and the humidity levels, we recommend allowing 4-8 hours for the carpets to dry on average without the aid of our air movers.
